Description

VALLEBONA - Land with rustic and reinforced concrete foundations - Ideal for the construction of a prefabricated green building house. In a sunny, quiet and easily accessible area, we offer land of about 5,500 square meters, terraced on large strips, partly cultivated with olive groves and equipped with spring water intake. On the lot there are already foundations in reinforced concrete structure, ideal as a base for a prefabricated house in green building. The property allows the construction of a house of about 60 square meters, as well as basement rooms, for a total building area of about 160 square meters. The location, in a semi-hilly position and immersed in the Mediterranean scrub, offers a panoramic view open to the sea, guaranteeing privacy and quiet while remaining a few minutes from the town, services and shops. The property includes a small and characteristic retrievable rustic, on two levels for a total area of about 14 square meters. - Ref. R.4378
